

FONT 10

Wall-mounted Drinking Fountain

Installation Instructions

Step 1

Remove the FONT10 from the packaging and check that all parts are included in the box against the packing.

Step 2

Place the bubbler tap to the basin as shown ①, Screw the lock nut. Please note, when installing bubbler, basin and lock nut are firmly tight and pointing in the right direction, screw and make sure your fasteners are just tight enough.

Step 3

Install the basin to the wall. Drilling suitable holes in place by using expansion screws to fit the basin.

Step 4

Connect the drain to the basin. Using an Allen key tighten the drain screw to the basin (SEE ②). Assemble the drain as shown ③, tighten the tail pipe, P-trap the drain pipe by hand until you're sure that they fit together, then tighten them with a wrench.

Step 5

Make water supply connections from bubbler to the inlet hose. Turn on the water supply and check for leaks.

Step 6

Check stream height from bubbler. Steam height is factory set at 6cm-6.5cm. If stream height varies greatly from this, please take off the lock (see ④), adjust the flow by using a small screwdriver.
