## Description

- **HI CLASS TOP 30 IB AC WG supplies Chilled & Ambient Water plus Chilled Sparkling Water**
- **HI CLASS TOP 30 IB AC supplies Chilled & Ambient Water**
- **BASE CABINET TOP 30 Converts the HI CLASS 30 Table Top to a Floor Standing cooler**
- THE HI CLASS TOP 30 is an elegant & versatile table top cooler in anthracite livery with chrome accents.
- The 1ltr carbonator of the HI CLASS TOP 30 IB AC WG is situated inside the ice bank chiller. This results in excellent and lasting carbonation.
- The ice bank chilling system provides 30ltr of chilled water per hour with a 7ltr instant draw off.
- An excellent dispensing height of 30cm facilitates bottle filling.
- When installing an ice bank cooler, please ensure that the ice bank is filled with water before turning the cooler on. Without water, the chilling unit will burn out.
- The base cabinet easily converts the table top into a floor standing cooler. It includes an integrated cup dispenser and space for a CO<sub>2</sub> cylinder and water filter.
- The HI CLASS TOP 30 can be retrofitted with contactless dispensing.

## Accessories

Carbonated coolers require a gas regulator to connect the CO<sub>2</sub> cylinder. Our REGCO<sub>2</sub> gas regulator is suitable for 600gm disposable CO<sub>2</sub> cylinders.

POU Installation rail with filter. Includes compression fitting, 1-Micron green filter, water block, copper pressure reducing valve & non-return valve.

Contactless upgrade kit allows for touchless dispensing. This will be fitted by our engineers and provides you with the latest technology in water dispensing.
