Accessories For Coolers:

Drip Tray Overflow options
- 3ltr and 10ltr overflow kits
- Mains draining kit
- Mains draining kit with pump

Fixings to the Wall
- Cowling to secure floor standing Coolers to the wall
- Wall Bracket to secure Coolers to the wall

Conversion Kit from Bottled to POU

Automatic 24/7 Sanitising and Water Purification Systems
- SIPneo3 can be added to all floor standing Tank Fed Coolers
- KLARAN UVC LED Shield can be added to all Direct Chill floor standing and table top coolers

ArcticRevolution 70 / 70B: An elegantly designed Direct Chill table top cooler dispensing chilled and ambient water. Factory fitted with FloodGuard to prevent large scale flooding. Can be fitted with infra-red contactless dispensing and the KLARAN UVC LED water purification system.

ArcticStar 55: A POU or Bottled cooler available as floor standing or table top. The outstanding feature is a hot water booster button which can boost the hot water temperature to 95°C. Concealed manual taps are tamper resistant. An inbuilt ECO sensor stops the boiler from boiling "when the office lights go out". The floor standing cooler can be fitted with SIP self-sanitising system to reduce sanitising call outs.

ArcticChill 88: A high capacity Direct Chill POU cooler for chilled water only. A high dispensing area allows for bottle filling. Factory fitted with FloodGuard to prevent large scale flooding. Can be fitted with infra-red contactless dispensing and the KLARAN UVC LED water purification system.

ArcticChill 98: A high capacity Direct Chill POU cooler dispensing chilled and ambient water. A high dispensing area allows for bottle filling. Factory fitted with FloodGuard to prevent large scale flooding. Can be fitted with infra-red contactless dispensing and the KLARAN UVC LED water purification system.

3300X: A tough no nonsense POU or Bottled cooler of legendary reliability. Manual taps. Floor standing or table top. Can be fitted with SIP self-sanitising system to reduce sanitising call outs.

AQUALITY FZ: When installing an Ice Bank Cooler please ensure to fill the Ice Bank with water first before turning the Cooler on. Without that, the Chilling unit will burn out.

Jazz 1000/1100: Our economy POU & Bottled cooler range. Floor standing only, available as chilled & ambient or chilled & hot.

AquaPoint 60: Designed to look like a conventional bottled cooler this ambient & cold, floor standing model is the first of a new family of economy coolers.
Water Fountains & Under-Sink Chillers

Description	Durable fountain with push button swan neck and bubbler. 26ltr/h capacity below 10°C from in-fluent water temperature of 20°C	Hands-free, foot pedal controlled fountain with tamper resistant swan neck which is screwed to the drip tray. Without bubbler to avoid bacterial contamination. The same high spec as the WFT6	The UC800MC under-sink chiller has an attractive chrome manual swan neck tap	UC800MCL Undersink chiller with a contactless swan neck tap. The swan neck tap has an infra-red sensor which activates the dispensing through hand movement	The FONT10 has a Bubbler to dispense water. Robustly built and easy to install, the FONT meets the growing need of dispensed drinking stations indoors or in covered outdoor areas	The FONT10BCL drinking fountain has an infra-red sensor which allows for contactless dispensing to avoid hand to Bubbler contact contamination. Robustly built and easy to install, the FONT meets the growing need of dispensed drinking stations indoors or in covered outdoor areas	This contactless wall mounted fountain combines our FONT10 with a contactless swan neck tap. The infra-red sensor of the tap activates dispensing water through hand movement	The FONT30 Wall mounted drinking fountain with bubbler and bottle filler. Robust build and easy to install it meets the growing need of dispensed drinking stations indoors and in covered open spaces	The FONT30CL wall mounted drinking fountain has a contactless bottle filler and a contactless Bubbler. Both have a separate infra-red sensor which activates dispensing through hand movement in front of the sensor. Robust build and easy to install it meets the growing need of dispensed drinking stations indoors and in covered open spaces
