

WFT6

Our Staple Fountain

Enhance your product offering with our durable and elegant WFT6 water fountain. Built from high quality stainless steel, this fountain is sturdy and practical, featuring a built-in basin with drainage. Suitable for indoor installation only, the WFT6 connects to your customers mains water supply for consistent performance. Producing an impressive 26ltr/h of chilled water, this fountain is suitable for spaces with high demand.

- 26cm dispense height (swan neck tap)
- 26ltrs/h of chilled water
- Drinking bubbler and swan neck tap dispensing included as standard
- Suitable for indoor installation only
- Add our WFT6 cowl for added security
- Stainless steel build with drainage basin

Accessories

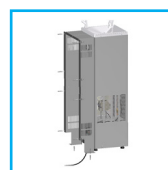

Installation Rail & Filter

Includes compression fitting, 1-micron green filter, water block, copper pressure reducing valve & non-return valve.

Cowling

Add cowling to your WFT6 to complete the set up. Keeps your customers area tidy and helps protect against unwanted access and vandalism.

Spares & Replacements

Find spares and replacements for specific parts on our webshop. You can order the swan neck tap replacement on the go, 24/7.
