Eco-Friendly & Practical

Our one of a kind wall mounted bottle filler. The ideal solution for schools, gyms and public spaces, with some incredible features that your customers will love. Extraordinary dispense height paired with an eco-conscious plastic bottle savings calculator. Dispenses mains water temperature only with the dispensing speed being driven by the mains water pressure. Suitable for indoor or covered outdoor installation.

Please note: If installing in a covered outdoor space, please ensure the pipework/filter is lagged to prevent freezing.

- 38cm dispense height.
- Ambient water from mains connection.
- Mains waste connection available.
- Suitable for indoor or covered outdoor installation.
- Buy with our installation rail and water filter kit.
- Eco-friendly plastic bottle savings counter.
- Push button operation

Accessories

Installation Rails

Includes compression fitting, 1-micron green filter, water block, copper pressure reducing valve & non-return valve.

Filters

Range of filters and filter housings that are compatible with our machines. Removing taste & smell of chlorine as well as any contaminants.
