

Water Filters

Complete range of filter candles & housings

We offer a wide range of water filters to cover all of our equipment. We supply 3 different types of filters, eco friendly, conventional and scale filters. Our eco-friendly filter range provides our customers with a sustainable supply of essential water filters. See below for more information and be sure to check out our top-of-the-range Nanofilter.

Eco Friendly Filters

Nanofilter Candle

Woven mesh structure for optimum filtration. Removes 99.9% of bacteria, viruses and other contaminants. Guarantees optimum flow rate and resists blocking.

Carbon Block Candle

Industry standard filter candle. Removes taste & smell of chlorine from mains water. Disposable with household waste. Suitable for ambient or chilled water filtration only.

Filter Housing

Recently updated, our reusable filter housing features a valved head. When unscrewed, it cuts off the mains water supply, making it easy for filter candle replacement.

Rail & Nanofilter

Our easy installation rail plus our popular Nanofilter candle. Pack also includes one filter housing, creating a complete filter installation package for ambient or chilled water only.

Rail & Carbon Block

Our easy installation rail plus a Carbon Block filter candle. Pack also includes one filter housing, creating a complete filter installation package for ambient or chilled water only.

Conventional Filters

Filter XL

Traditional all-in-one filter made up of a plastic filter housing with a Carbon Block candle sealed inside. Not recyclable and the housing can't be re-used. Simple and economical solution.

Rail & Filter XL

Our easy installation rail plus an all-in-one Filter XL. Traditional and complete installation package for ambient or chilled water only.

Scale Filters

Brita C150

Medium sized resin scale removal filter from Brita. Perfect accessory for a boiler or hot water dispensing machine. Lifespan is dependent on water hardness and temperature.

Rail & Brita C150

Easy installation rail with a Brita C150 resin scale removal filter. Complete installation package for hot water machines, usually paired with one of our boilers.

For more technical information, about our ranges or specific filters, please browse our filter section on our website. Alternatively, we have published a useful technical article regarding our water filter range on our information hub which is also accessible on our website.
