

Power Smart 3

Smart Technology Table Top Boiler

A smart technology boiler that features a built in eco sensor which automatically enters sleep mode when office / surrounding lights are turned off. This table top can deliver up to 96 cups per hour of boiling water and comes with an integrated drip tray. The PowerSmart 3 has a small footprint making it an ideal economy solution for tight workspaces.

- 16.5cm dispense height
- 17ltrs/h of hot water (96 cups)
- Conventional lever for easy operation
- High grade insulation for maximum efficiency
- Saves electricity costs & reduces carbon emissions
- 6ltr rapid draw off

Accessories

Installation Rail & Scale Filter

Includes one installation rail with all the fixtures and fittings, and one Brita C150 scale removal filter.

Scale Filters

Replacement Brita C150 scale removal filter. For use in hard water areas. Designed for hot water dispensers with large output capacities.
