

# ArcticChill 108

*Precision Meets Simplicity*

Quality assured cooler with a superior dispense height to cater for refilling sports bottles. The 108 is a cost effective and reliable chilled only cooler, which is why it is one of our most popular machines. Built for durability and straightforward operation, we're confident your customers will love it.

- 29cm dispense height
- 35ltrs/h of chilled water
- High capacity direct chill cooler
- Flood guard protection included
- Easy to maintain and built to last

## Accessories

### Installation Rail & Filter

Includes compression fitting, 1-micron green filter, water block, copper pressure reducing valve & non-return valve.

### Klaran UVC LED

Protects direct chill water coolers from bacteria, viruses & other pathogens providing point of dispense protection. Available as factory fitted or for self installation.

### Contactless

Upgrade this cooler by adding contactless dispensing. Helps avoid the risk of contact contamination and enhances your customers hydration experience.

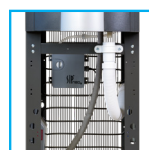

### Overflow Kit

We have a selection of drip tray overflow kits that are available for pre or self-installation. Our 10ltr kit (pictured) features an alarm which sounds when the container is full.

### Mains Drainage

Connect the drip tray to mains drainage to easily dispose of waste water. Requires modification of the drip tray and bracket and is only available factory installed.

### Pumped Waste

Pumps waste water directly into the mains drainage point, even against gravity and over a distance of 100m. Only available factory installed.

### Cowling

Metal cowling to fix floor standing water coolers to the wall. Keeps machines secure and safe from tampering. Comes in anthracite grey.
