

Jazz 1000/1100

Traditional Design, Modern Performance

This classic cooler packs a punch with a high output that competes with all water coolers. A high quality build, the Jazz is a sturdy and reliable water cooler that has stood the test of time. Its user-friendly design and simple features cater to those seeking a hassle-free beverage solution. Upgrade the Jazz with the addition of an external cup dispenser for added convenience.

- 14cm dispense height
- Dispenses ambient water + 20ltrs/h of chilled water
- Traditional paddle tap dispensing
- Available as bottled or POU

Accessories

Installation Rail & Filter

Includes compression fitting, 1-micron green filter, water block, copper pressure reducing valve & non-return valve.

Cup Dispenser

Stylish magnetic cup dispenser that attaches to the outside of the cooler for enhanced convenience. Available in a range of colours to suit all machines.

Replacement Taps

Replacement and spare paddle taps are a recommended add-on with any Jazz orders. Easy to install and covers your machines for when things don't go to plan.
