

# Niagara IN

## Cosmteal Undersink Chiller

Superior performance undersink chiller built by Cosmetal. Dispenses 120ltr/h of chilled and sparkling water, with a continuous flow rate of 70ltrs. The Niagara IN 120 is available as an ambient and chilled unit, or ambient, chilled and sparkling. For undersink chillers it is also important to allow space for ventilation around each unit. Poor ventilation will affect the chilling performance and could result in premature failure. This undersink unit is compatible with the following products: Drink Tower, G400, Cobra 2 and G72.

### Accessories & More

#### Installation Rail & Filter

Includes compression fitting, 1-micron green filter, water block, copper pressure reducing valve & non-return valve.

#### Drink Tower

Electronic tap dispensing ambient, chilled & sparkling water. Compatible with the Niagara IN WG undersink chiller.

#### G400

Electronic tap dispensing ambient, chilled & sparkling water. Compatible with the Niagara IN WG undersink chiller.

#### Cobra 2

2-Way manual tap, dispensing ambient & chilled, or chilled & sparkling water. Compatible with both Niagara IN models.

#### G72
