

ArcticChill 109

Unleash Performance & Stay Refreshed

The 109 offers both ambient and chilled water at the push of a button and is one of our most popular coolers. Quality assured high capacity cooler with an increased dispense height, perfect for refilling sports bottles. Built from a tried and tested blueprint, we're confident your customers will love it.

- 29cm dispense height
- Dispenses ambient water + 35ltrs/h of chilled water
- Solenoid dispense button for easy operation
- Touch panel for drink selection
- High capacity direct chill cooler
- Overflow kits & mains drainage options available
- Flood guard protection included
- Sturdy build, with floor standing or tabletop models available

Accessories

Installation Rail & Filter

Includes compression fitting, 1-micron green filter, water block, copper pressure reducing valve & non-return valve.

Klaran UVC LED

Protects direct chill water coolers from bacteria, viruses & other pathogens providing point of dispense protection. Available as factory fitted or for self installation.

Overflow Kit

We have a selection of drip tray overflow kits that are available for pre or self-installation. Our 10ltr kit (pictured) features an alarm which sounds when the container is full.

Mains Drainage

Connect the drip tray to mains drainage. Can also be supplied with pumped waste if mains drainage is not available.
